

**Product Description:**

Stain Remover is a powder mixture that when applied to stone surfaces will remove stains such as wine, coffee, tea, urine, and others. Stain Remover will also clean and brighten grout and remove mildew and mold. It can be used for outdoors or indoors.

**Uses:**

For all natural stone such as marble, granite, limestone, travertine, and man-made stone like concrete, tile, and grout.

**Application:**

1. In a small container, mix some of the Stain Remover with **hot water** to make a wet foamy liquid. Approx. 2 heaping tablespoons for a ½ cup of hot water.
2. Mix well **by stirring to dissolve**. (Adding a drop of dish soap will help in activating it)
3. Apply the mixture on the stained surface.
4. Let it soak for about 4 hours. Then clean surface with sponge and water.
5. Some stains will require more than one application. If so, repeat the procedure.

**Maintenance:**

Always seal natural stone to prevent stains. For stain protection, use Brightstone Universal Sealer.

**Limitations:**

The Stain Remover will not remove rust and oil based stain.

**Handling and Storage:**

Close left over product tightly. Store closed container in a cool dry area. This product is sensitive to air and moisture.

**Caution:**

KEEP OUT OF REACH OF CHILDREN
