

## Stone Cleaner

## Technical Data

### Product Description:

Stone Cleaner is a concentrated water-based formulation that safely and effectively cleans stone. It removes dirt, grease, food, and scuffmarks, while conditioning stone surfaces. When used regularly, it will enhance the natural beauty of the stone rendering it clean and silky smooth. It is phosphate-free, environmentally friendly and a biodegradable cleaner.

### Uses:

For cleaning natural stone such as marble, granite, limestone, slate, as well as, ceramic porcelain, concrete, and quarry tile.

### Dilution Instruction

Dilute cleaner with water according to its intended use.

- For light cleaning use 1 ½ cups [12 oz.] of Stone Cleaner concentrate per gallon of water.
- For heavy soiling use 3 cups [24 oz.] per gallon of water.

### Application:

1. Apply diluted Cleaner and rub stone surface with a sponge or towel.
2. Wipe Dry.
3. For floors use sponge mops or a wet dry vacuum.

### Coverage:

Coverage depends on the type of stone, degree of soiling and method of cleaning.

### Maintenance:

Always seal natural stone to prevent stains. For stain protection, use **Brightstone Sealers**.

### Limitations:

Will not remove deep set stains and etch marks from natural stone.

### Handling and Storage:

Store closed container in a cool dry area.

### Caution:

KEEP OUT OF REACH OF CHILDREN
