SEALING

Stone, Tile, & Grout should be sealed when first installed and periodically sealed thereafter. Most natural stone like; marble, granite, travertine & limestone, are very porous and will absorb liquid materials which can cause staining. Most stains can be prevented with the proper application of **Brightstone Sealers.**

CLEANING

Brightstone recommends regular cleaning of stone; tile & grout with either **"Clean-N-Seal"** or **"Stone Cleaner"** in order to prevent soil build-up. Unlike many other cleaners, Brightstone **Clean-N-Seal** and **Stone Cleaner** are non-abrasive, non-acidic and neutral cleaners specifically designed to keep surfaces dirt-free allowing the beauty of natural stone to shine through. Neither **Clean-N-Seal** nor **Stone Cleaner** will cause any harm so they can be used as often as desired. If the stone, tile or grout has been sealed with Optimum, Universal, or Tile & Grout Sealer, regular use of **Clean-N-Seal** offers the added benefit of preserving the sealer during the cleaning process.

*(**Important:** Never use abrasive Cleaners on Polished Natural Stones)*

RESTORING

Polished stone may lose its shine with time. Wear (foot traffic) results in the dulling or abrasion of the polished stone surface. For large areas **Brightstone "Marble Refinisher"** (machine use) is recommended and the **"Marble Refinishing Kit"** (manual use) for spots or small areas such as, marble counters, furniture, or tables.

***Note:** Neither Marble Refinisher or Marble Refinishing Kit are meant for Granite.*

Brightstone "Stone Color Enhancer" is a product that will rejuvenate, enhance, and darken the color of natural stone and grout as well as providing stain resistance.

Customer Service & Tech Support

We take great pride at Brightstone in offering Personal Customer Service and Technical Support. Available between 8:00 am - 5:00 pm, Monday - Friday, Pacific Standard Time.

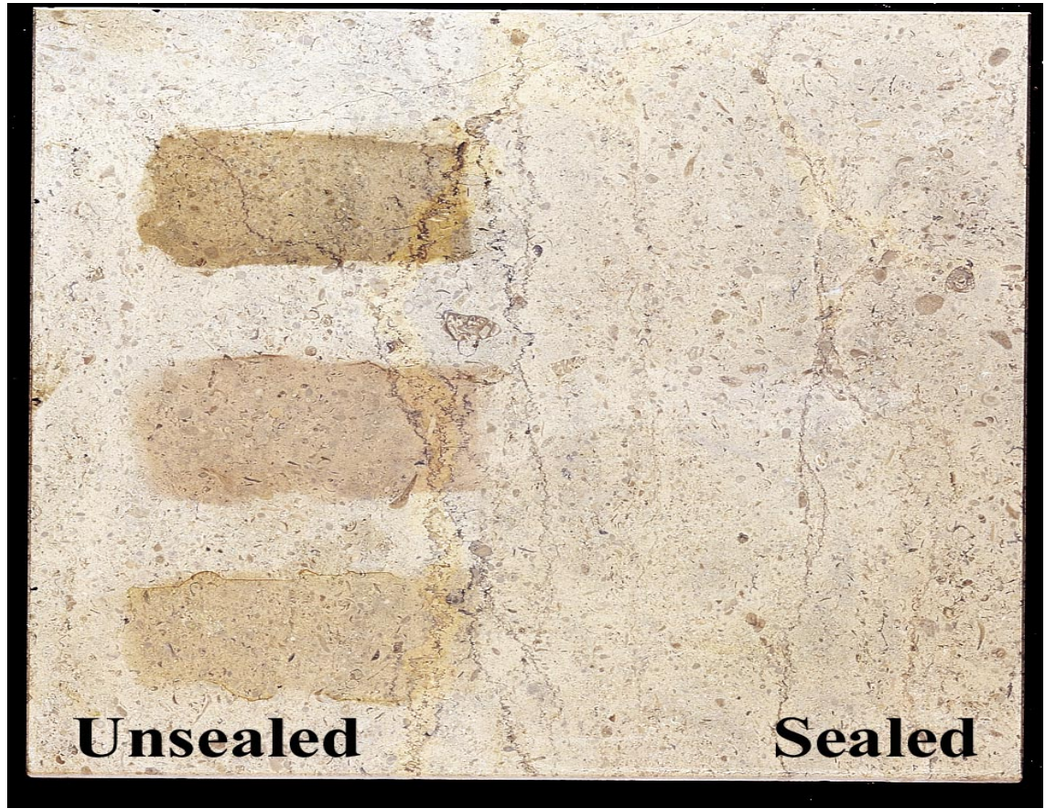
BRIGHTSTONE®

Premium Quality, Optimal Results



The Safest Stone Care Products Available...

PRODUCTS THAT YOU CAN TRUST

Brightstone makes the finest and most technologically advanced Stone Care Products available today.

From the Lab to the Field, the Emergence of a Safe Stone and Tile Care System that Works!
At Brightstone, we have carefully researched and formulated products that are Safe and Simple to use… Yet Extremely Effective! We are proud to offer our customers practical solutions and time-tested methods for Protecting, Cleaning & Restoring stone, tile, and grout.

The Origins of our Superior Stone & Tile Care System. Brightstone products were originally designed for Professional Stone & Tile Care specialists. It quickly became apparent that responsibility for stone care was not limited to specialist but also included Home Owners & Maintenance Professionals.

We needed solutions, methods, and most importantly products that would accommodate the needs of all these Individuals. So we made several demands on our Chemists in the development of the Brightstone Product Line.

We wanted, first and foremost, Products that Worked! We then said the products must be Safe and Easy to Use and Environmentally Responsible. We have met the Demands!

SEALERS

OPTIMUM SEALER

- **Maximum Stain Protection**
- For The Most Porous Surfaces
- Inhibits Mold & Mildew Growth
- Penetrating - Safe & Easy To Use
- Lasts Up To 20 Years

UNIVERSAL SEALER

- **Premium Stain Protection**
- For Polished & Honed Stone
- Inhibits Mold & Mildew Growth
- Penetrating - Safe & Easy To Use
- Lasts Up To 15 Years

CLEANERS

CLEAN-N-SEAL

- **Ready to Use**
- **Cleaner & Re-sealer**
- Daily Stone, Tile & Grout Cleaner
- Preserves Existing Sealer
- Neutral Cleaner - Safe & Easy to Use

STONE CLEANER

- **Concentrated Safe - Ne tral Cleaner**
- All Stone, Tile & Grout
- Daily or Deep Cleaning
- Conditions Stone Surfaces
- Easy to Use

STAIN REMOVER

- **Removes Deep Stains**
- All Natural Stone, Porous Tiles & Grouts
- Removes Mold & Mildew
- For Coffee, Tea, Wine & Other Stains
- Fast Acting Results

RESTORERS

COLOR ENHANCER

- **Enhances Natural Color of Stone**
- Use on Honed, Tumbled, & Flamed Stone
- Stain Resistant - Penetrating Sealer
- Safe & Easy to Use

MARBLE REFINISHER

- **Removes Dullness & Etching**
- Use on Polished Marble & Travertine
- Polishes Marble to Mirror-Like Finish
- Kit Includes Everything to Restore Shine
- Safe & Easy to Use

STONE POLISH

- **Enhances Shine on Polished Stones**
- Use on Counter Tops & Tables
- Increases Depth of Color
- Water - Based Easy to Apply
- Not Recommended For Floors
